

Subject: Extension Request: digital-literacy "uses of digital literacy" Nihaal Sharma

Respected Professor Kannan,

I am writing to respectfully request a 48-hour extension on the "uses of digital literacy" due this Friday.

While I have prioritized this project, I have encountered a significant technical issue in my local environment that is affecting the process. Rather than submitting an incomplete assignment I would appreciate the additional time to ensure the logic meets the standards of the course.

I have attached my current progress and a brief log of the issue I am dealing to show that the work is well underway. Thank you for your time and for considering this addition to my submission timeline.

regards,

Nihaal Sharma
