

Subject: Engineering Inquiry: Summer Internship Opportunities Nihaal Sharma

respected coordinator sir,

I have been following your company recent developments in AI and ML, and I am deeply impressed by your team's approach to AI agent.

As a Computing Engineering student at VIT Bhopal University, I am looking to contribute my skills in Python and Machine Learning to a forward-thinking team this summer. I am particularly interested in how your firm bridges the gap between theoretical modeling and scalable production.

I have attached my resume and a link to my portfolio for your review. I would welcome the opportunity to discuss how my academic background and project experience align with your Company's goals.

Sincerely,

Nihaal Sharma
